Process: [https://www.instagram.com/
itno.collective/](https://www.instagram.com/itno.collective/)

In this multi-month-long project, I worked with actor/director Elizabeth Maille under *itno collective*, which we founded to facilitate collaboration with actors, musicians and visual artists. We developed a framework for sourcing content from Instagram and wrote the initial texts together. I worked on the final draft of the script. Two performances.

Traveling Piece

This is a collection of plays for you. To take part:

1. Pick a scene partner.
2. Pick a reading stand.
3. Pick a play script with your partner.
4. Both of you are the character YOU.
5. Start the play & have fun!

Traveling Piece: a Play Installation

2016

Scripts (to be read with the instruction):

<http://bit.ly/traveling-piece-A>

<http://bit.ly/traveling-piece-B>

Play installation where YOU are both the visitor and the character in the script. YOU (and your peer, OTHER) are encouraged to take control of your roles in the short plays inspired by a world of divided truths and facades of (re)-presentations of the self.

Working again as the *itno collective*, Elizabeth and I conceived *Traveling Piece* for the exhibition *Hatch Series: Invented Traditions*.

Two copies of scripts (with inverse lines for YOU and OTHER) were installed at the exhibition.
